- *Offers cloud-ready hardware*

**New Delhi, July 8, 2010:** HCL Infosystems, India's premiere hardware, services and ICT Systems Integration Company, today announced the launch of **HCL O'zone – an end to end cloud based computing solution service** for its customers. With this, HCL Infosystems has revolutionized the existing cloud framework with its new Infrastructure as a Service (IaaS) and Software as a Service (SaaS) platforms, thus enhancing the company's capabilities in areas of application delivery and infrastructure deployment & management.

HCL O'zone will deliver the benefits of reduced capital expenses, increased data security, increased flexibility through server consolidation, reduced power & cooling, green computing and disaster recovery. The solution will also provide 24X7 technical support to manage scalability and deliver optimum performance.

On the launch of HCL O'zone, **Mr. George Paul, Executive Vice-President, HCL Infosystems**, said, "We believe that India possesses a powerful IT ecosystem which will support the development and increase the demand of cloud based IT services in the years to come. We are glad that today we have been able to create a delivery framework which will support both IaaS and SaaS model. Our solutions will benefit the users with reduced fixed costs and predictable operational expenses for business, and increased adaptability in the dynamic market environment."

### **Key highlights of O'zone**

- Integration of IaaS and SaaS to ensure high performance
- Round the clock technical support and helpline facility
- Highly secured infrastructure to ensure data safety and business continuity
- Green infrastructure ensures energy efficiency

"We intend to provide a standardized cloud based structural framework to our clients similar to a utility service model which is both fast and scalable and provides a secure working environment while completely de-risking against ICT skill related needs", he added

HCL O'zone will offer a plethora of services with multi-tenancy enablement, performance testing, pricing structure management, service catalogue management, provisioning & administration, access control & policy control, service delivery platform integration and application management enablement.

Exemplifying its commitment to the progressive changes in technology, the company has also launched cloud based solution HRMate – a solution for human resource management, and partnered with Wellogic to roll out India's first Healthcare Information Exchange Platform on the cloud.

HCL Infosystems will cater its state-of-art cloud based services to enterprises, mid-sized organizations (SMBs) and SOHOs with the flexibility to have technology landscape monitored remotely on a regular basis while maintaining full use of tools hosted in a secure environment. The seamless working environment of the HCL O'zone framework ensures a flawless delivery model and real time back-up available with three cloud centers in Delhi, Mumbai and Chennai.

With the market becoming ready for cloud, there will also be requirement of cloud-ready hardware. The opportunities has driven HCL Infosystems to augment its cloud offerings with a comprehensive range of cloud-ready laptops, desktops, thin laptops, servers, thin clients and cloud data center in a box.
